

The figure is a map of the San Francisco Bay Area, showing the distribution of 1000 simulated locations. The locations are represented by circles of varying sizes and colors, indicating different levels of density or probability. The map includes major roads, water bodies, and a grid overlay. The distribution is highly concentrated in the central urban area, particularly around the San Francisco Peninsula and the East Bay. The colors range from blue (low density) to yellow (high density), with the highest density areas being yellow and green. The circles are of varying sizes, with larger circles indicating higher density. The map also shows major roads and water bodies, providing a geographical context for the simulated locations.
